

Plant Producers

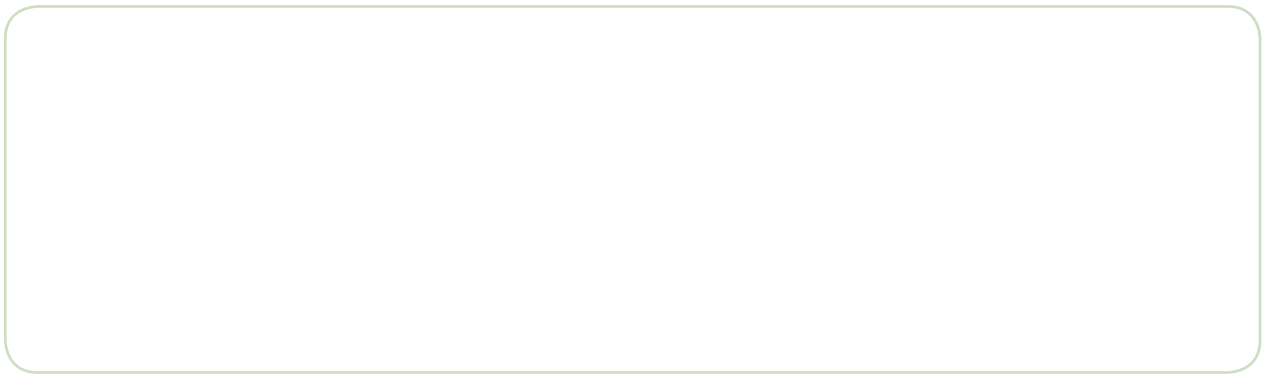

1 Label the following diagram with the correct terms from the Word Bank below showing the process of photosynthesis.

Word Bank				
Oxygen	Sunlight	Water	Carbon Dioxide	Carbohydrates (sugar)

Plant Producers

- 2** Using the information you gathered from the plant investigation, explain the changes you observed in the plants. You may also draw an illustration to help support your explanation.

- 3** In addition to the investigation you've already done, what else could you test using plants? How might you test it?
